THE PERFECT SOLUTION FOR HARD DAILY WORK

There are more burdensome jobs than others, activities that require constant dedication and cause continual physical fatigue, work diluted over time but that needs to keep its high-quality.

Among these, jobs in agriculture and construction stand out, sectors where the only human strength is not enough. Agricultural machinery and construction equipment need to go hand-in-hand with the men's work, being tireless and guaranteeing the best performances. Machinery need the best fluid technology to last longer while working, especially when operating under severe conditions.

KEEP YOUR TIRELESS MACHINERY EFFICIENT

PETRONAS Arbor is the full range of lubricants tailored for agricultural and construction machinery able to keep their efficiency while guaranteeing a longer life-cycle. PETRONAS Arbor is the perfect solution for high and long-lasting performances for hard daily work, protecting tireless machinery from oxidation, decomposition, wear, and keeping an optimal pistons' cleanliness and viscosity stability.

SLUDGE CONTROL

Sludge slows moving parts down, leading to excessive friction and to deposits on metallic engine parts. PETRONAS Arbor protects the engine from sludge and deposits that can affect the machinery's reliability and its durability.

SOOT HANDLING

Soot leads to a viscosity increase that can affect the engine performance. PETRONAS Arbor with its high resistance against soot can keep high the performance of your engine.

WEAR PROTECTION

Hard work take its toll on the machinery, putting extra loads throughout the engine. PETRONAS Arbor has been developed to deliver high levels of wear protection.

VISCOSITY STABILITY

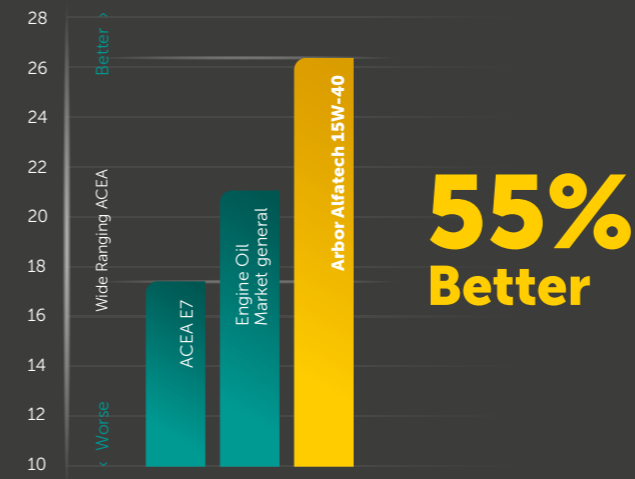

Because of its soot handling and its resistance to oxidation, PETRONAS Arbor keeps an optimal viscosity avoiding filters' blockage and protecting the engine longer.

PISTONS' CLEANLINESS

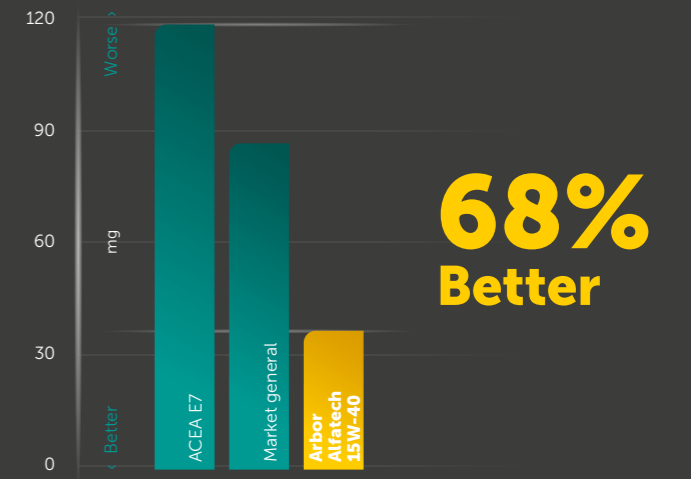

During the diesel engine combustion process, deposits accumulate in the engine, increasing engine wear. PETRONAS Arbor guarantees the operational life of engine components.

OUR LUBRICANTS ARE UNRIVALED

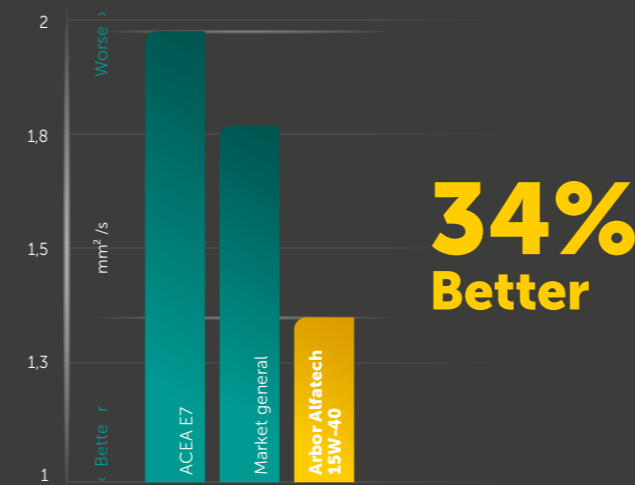

The several tests, that compare PETRONAS Arbor to ACEA industry, confirm the quality and efficiency of our range of lubricants for agricultural and construction machinery. It's important that each of their parts is protected; it is crucial that engine, their most valuable asset, is kept strong.
